EDUCATION

Bachelor of Arts

June 2026

Majors: Economics & Business Analytics, Minor: Data Science, GPA: 3.74

Lawrence University, Appleton, WI

- Dean's List (2022-2025)

WORK EXPERIENCE

Career Peer Educator, Lawrence University Career Center | Appleton, WI

January 2024 - Present

- Provide client-facing career advising to students by reviewing resumes and cover letters, supporting job and internship applications, and guiding students through career platforms and tools, strengthening user adoption and service consistency
- Support and participate in career workshops, events, and newsletter interviews, contributing to the development of standardized resources, guides, and documentation used by the Career Center
- Collaborate with cross-functional teams within the Campus to manage student requests, coordinate initiatives, and support scalable process improvements in career services delivery

Data Administrator Intern, Legal Action of Wisconsin | Milwaukee, WI

June 2025 - August 2025

- Designed and implemented interactive Power BI dashboards using Zoom call data to monitor missed call rates and operational KPIs, enabling stakeholders to identify inefficiencies and improve service reliability
- Designed and maintained ETL pipelines to extract, transform, and load data, improving data quality, system reliability, and decision-making
- Created and implemented automated workflows across LegalServer, Excel, Power Automate, and Outlook to streamline volunteer tracking, automatically notify volunteers of upcoming expiration dates, and enhance process efficiency and system reliability
- Provided issue support and troubleshooting for data, reporting, and system-related issues across multiple departments, resolving technical problems and ensuring continued efficiency

Data Entry and Analysis Intern, Nabil Bank

May 2023 - July 2023

- Conducted trend analysis and forecasting on monthly reports to facilitate operational planning and performance monitoring
- Contacted directly with customers to explain banking services, account processes, and financial transactions, ensuring clear communication and accurate execution
- Helped with account setup, transfers, and service requests while maintaining data accuracy, process consistency, and a smooth client experience

RELATED EXPERIENCE

Branding Strategy Analyst Extern, Beats by Dre

April 2024 - May 2024

- Analyzed functional descriptions and technical research materials, collecting and evaluating primary and secondary data to assess Gen Z preferences for over-ear headphones and support strategic recommendations
